DETAILED ACTION

Applicant's request for Continued Examination (RCE) under 37 C.F.R. 1.114, filed on 1/31/05, following a non-final office action is improper.

However, Applicant's amendment filed on 1/31/05 has been entered. Amended claims 1, 4-7 and 10-12 have been entered and they are examined on the merits herein.

Inventorship

In view of the papers filed 1/31/05, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by the addition of Danilov, Sergei M. as an inventor.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

Oath/Declaration

The oath or declaration is still defective because it is apparently that Applicants inadvertently omitted the submission of an amended oath/declaration along with the amendment filed on 1/31/05. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c).

Please see the change of residence address of Paul N. Reynolds in the Combined Declaration and Power of Attorney submitted on 4/27/04.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 4-6 and 10-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention for the same reasons already set forth in the previous office action mailed on 7/28/04 (pages 4-6).

Response to Arguments

Applicant's argument with respect to the above rejection in the Amendment filed on 1/31/05 (page 11) has been fully considered but it is respectfully not found persuasive.

Applicants responded simply that the deposit will be timely made and will provide evidence of said deposit. It is noted that there is no evidence that a deposit has been made at the time of the preparation of this office action.

Accordingly, claims 4-6 and 10-12 are rejected under 35 U.S.C. 112, first paragraph, for the same reasons already set forth in the previous office action mailed on 7/28/04 (pages 4-6).

Conclusions

Claims 1 and 7 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
